Join *my* **QA**® **now!**

Your Global QA Platform

**All-in-One. All Connected. All Secure.**

# myQA Applications

Connect all your QA applications and Cross Check your data.

### myQA Patients

**Platform-based Plan Verification**

- Intuitive and efficient workflow in 4 optimized steps
- New software based on experience with >1600 OmniPro-I'mRT users

**myQA FastTrack**

- Real-time Measurements**
- Connect and measure for instant results (e.g. for beam steering, start-up behavior)
  - Allows the Linac technician to setup unscheduled tests

### myQA Machines

**Intelligent Machine QA**

- Complete protocol based machine QA (customizable and preset protocols)
- Plug ins for automated test runs such as: Dosimetry, MLC QA, Imaging QA (EPID, CBCT), Room QA, etc.

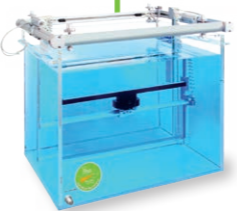

Connect your existing MatrixXX or StarTrack detectors

### myQA Accept

**Beam Commissioning & Annual QA**

- Connect your existing OmniPro-Accept software to the myQA Platform
- Benchmark your data in the cloud and use scans as test results or individual reference

Integrate your IBA Water Phantoms and existing OmniPro-Accept software

All-in-One. All Connected. All Secure.

### myQA Platform

**Have full control of your data**

- Data Control!**
- Data Efficiency!**
- Data Compliance!**

- Integrate all your data and applications into **one software platform** and **one Central Database (SQL)**
- Accessible throughout your department and even satellites
- Data safety and compliance with administration rights, central approvals and reporting

Never miss any key information

### myQA Cockpit

- Keep an instant overview with simple and clear reporting on one screen
- Track your patient data and machine QA status by using statistics & trends

Benchmark your QA data to gain full confidence

### myQA CLOUD

- Perform benchmarking of your QA data for best practice checks
- Connect (anonymously) with peers and data from around the world

# Join *myQA*<sup>®</sup> now!

All-in-One.

All Connected.

All Secure.
